

# EDUCATION

**Proud to be Old School**

From hands-on workshops to behind-the-scenes tours, from state approved continuing ed to specialized courses, PAM delivers unparalleled preservation-based education.

## Homeowner Series

Learn how to care for your old home. Classes and workshops feature expert instructors and active, hands-on learning. Favorites include Plaster Repair, Handyman Special, and Repairing Old Windows.

## Community Series

Discover the history and character of neighborhoods and communities throughout Minnesota on our walking tours. Some excursions have an architecture spin; others teach photography skills as you explore.

## Old Home Certified

Minnesota REALTOR® designation that we developed, and that only we offer. Get certified with the two-day course, and maintain your designation with Continuing Ed like Inspector Insights and Understanding Historic Interiors.

## Rehab Labs

Get out of the classroom! A unique educational experience, Rehab Labs bring students to historic properties. We keep class sizes small, so you get the most from hands-on practice and instructor interaction.

In the winter and spring of 2016, PAM hosted three Rehab Labs at an 1885 home in North Minneapolis. Participants learned about the original wood windows, repaired cracks and holes in the plaster, and stabilized and rebuilt the back porch.

Smartphone  
Photography  
Walking Tours

See your neighborhood through a new lens: your phone. Our Smartphone Photography Tour Series are co-led by a photographer and a local expert. Learn how to capture beautiful images with your phone while soaking up stories and sights along the tour route.
